

Derek Reitzel

734-765-4180
<http://mrsmr.org>

I graduated from Eastern Michigan University in 2007 with a BFA in Graphic Design. Almost all of that time was spent drawing and making things, which i still do.

Some of my finer qualitys include:

knowing printing process's such as screen printing, letterpress, digital imaging, wood block printing, stenciling, drawing and illustration.

I understand many industry leading computer programs such as Adobe Photoshop, Illustrator, InDesign, After Effects, Dreamweaver, Flash and Flex. As well as great knowledge of object oriented programming and a handful of coding languages like Html, css, Xml, javascript, Actionsript 3 and processing.

plus im nice.
